About IMH GROUPE

Inspired by a great passion for new technologies, IMH GROUPE was founded in 2015 and has been ever since working on consolidating its position as a leader in a variety of services in the IT field: Project Management, Agile Coaching, Customer services, Web and mobile IT development and International Outsourcing services.

MSECB

Why did you choose to get certified against ISO/IEC 27001:2013?

In order to gain its place on the market, and to attract new customers, enterprises should work hard to build trust and notoriety. To establish its credibility, IMH GROUPE has decided to get ISO/IEC 27001 certification by a professional accredited certification body such as MSEC B.

Since 2020, IMH GROUPE has shown conformity with ISO/IEC 27001 by building a robust Information Security Management System (ISMS) which fulfills the legal, contractual, and regulatory requirements and also the expectations of its customers and business partners.

Today, our ISO/IEC 27001 certificate can reassure our customers that their data and information are safe and also it proves that we have met the level of maturity of information security management system.

MSEC B

What are the main benefits of your company after implementation and certification against ISO/IEC 27001:2013?

The ISO/IEC 27001 certification is a confirmation that IMH GROUPE can provide globally accepted, effective, and secure services.

Now our customers are more confident in our products and services and show appreciation to the fact that we have taken the necessary steps to protect our business.

With the continual improvement of the ISMS, IMH GROUPE has been successfully insuring a permanent high-level of Information Security.

About your experience with MSEC B

Globally, our experience with MSEC B has been great. The certification process, and in particular the audits with MSEC B, have made us comprehend a lot of things about management systems. We have implemented, and now follow the best practices for Information Security Management System.

In addition, we have benefited year after year from the excellent surveillance audits that have been conducted by the MSEC B auditors. The relevant sampling has allowed us each year to improve ourselves, to increase the maturity levels of our processes, and to become more efficient.
