DAZN

**Journey Towards
ISO/IEC 27001
Certification**

To provide information security assurance to customers, the confidentiality, integrity, and availability of critical data and information technology assets must be strengthened.

In this sense, ISO/IEC 27001:2013 certification offers a great opportunity to demonstrate that DAZN has implemented and maintains a robust information security management system that protects its data and interests.

Certification against the internationally recognized ISO/IEC 27001 improves DAZN's information security culture and enhances the possibility of responding to evolving security threats while increasing organization-wide protection.

Valentina Scutelnic
– Head of Risk and Compliance at DAZN

About DAZN

DAZN are innovators, game-changers, and pioneers. DAZN is the digital leader in global sports media. It is home to the world's largest, fastest-growing sports streaming service. To achieve its goals, the company uses world-class technology that revolutionizes the industry. DAZN is available on smart TVs, game consoles, streaming devices, mobile devices, tablets, and computers.

DAZN is doing things no one has done before, giving fans and customers access to sports anytime, anywhere.

Why did you choose to get certified against ISO/IEC 27001?

DAZN chose to implement and certify against ISO/IEC 27001:2013 because it offers the necessary know-how for protecting the most valuable information. It offers a wide coverage of security measures and controls that help meet the requirements of several other security standards and facilitate external audits.

Benefits of obtaining certification against ISO/IEC 27001

- A more robust information security environment.
- The possibility to demonstrate to our customers and partners that we safeguard their data.
- Increased business opportunities.

Experience with MSECB

DAZN had an excellent experience with MSECB. The auditors were well prepared, with a high degree of knowledge of the ISO/IEC 27001 standard. The auditing process was delivered in a courteous and professional manner. The results were well-written and easy to follow, and customer service was very responsive.
