MSECB

CSA STAR

The CSA STAR (Level 2) Certification

CSA STAR Certification – Elevate Cloud Security Excellence

CSA STAR certification assures robust cloud security practices and signifies your proactive approach against cloud-related security threats. This impartial evaluation ensures the protection of your digital assets through a comprehensive review of security practices.

At MSECB, we understand the significance of ensuring cloud security in today's technology-driven landscape. As organizations increasingly rely on cloud services, addressing cybersecurity challenges becomes paramount to maintaining reputation and operational continuity.

MSECB is your trusted partner for CSA STAR certification. As a specialized certification provider for CSA STAR Level 2, we ensure your cloud service's security is assessed, aligning with the CSA Cloud Controls Matrix and the ISO/IEC 27001 management system standard.

Obtaining CSA STAR certification highlights your organization's dedication to upholding the highest level of cloud security. It exemplifies your commitment to data protection, instills confidence among stakeholders, clients, and partners, and positions you as a responsible and secure cloud service provider.

CSA STAR Level 2 Certification:

> **ISO/IEC 27001 Certification is a prerequisite to obtain CSA STAR Level 2 Certification.**

Benefits our Clients Gained from Getting Certified with CSA STAR Level 2

- ✓ Achieving CSA STAR certification bolstered our security strategy significantly. This certification assures our clients that we have implemented top-tier security controls to safeguard their cloud data and operations.

- ✓ The certification ensures compliance with internationally recognized standards. It demonstrates our adherence to rigorous security and privacy benchmarks, earning trust by showcasing our compliance efforts.

- ✓ CSA STAR certification helps us to identify potential security risks. It empowers us with proactive tools to mitigate risks, adding an extra layer of protection against breaches, data leaks, and cyber threats.

- ✓ We have enhanced our confidence among stakeholders, including customers, partners, and regulators, as the certification signifies a proactive commitment to secure cloud operations. It is not just about securing data; it is about securing relationships.

- ✓ CSA STAR certification showcases an advanced security readiness level, fostering trust, and attracting security-conscious clients, setting us apart in a competitive landscape.

Why You Should Trust Us with CSA STAR Certification

We understand the importance of making a well-informed decision. Therefore, we are committed to providing our clients with the best service possible. When selecting a certification body, here is why we have partnered with MSECB:

Dedication to Continuous Excellence:

We place an unwavering emphasis on quality and continuous improvement. Our commitment to maintaining the highest standards and enhancing our services to remain at the forefront of the industry ensures that our clients receive top-notch audit and certification services.

Prompt and Reliable Services:

We understand the importance of a timely certification, and with our efficient and streamlined certification services, we minimize the certification turnaround time without compromising quality.

Outstanding Customer Support:

We take a customer-centric approach and are committed to our customer's success and satisfaction. We deliver first-rate certification services with accountability, reliability, and exceptional support, guiding you throughout the process from start to finish and promptly addressing any queries or concerns.

High Expertise with Competitive Pricing:

We deliver services with competent, knowledgeable, and experienced auditors while offering competitive pricing and ensuring value for your investment in CSA STAR certification.

"*We highly encourage other organizations to taste the feeling of premium services that MSECB offers.*" – **UTI Grup**

"*We chose MSECB as they are a leading brand, and they provide excellent customer service which always meets the customers' timelines and needs.*" – **BIOS Middle East**
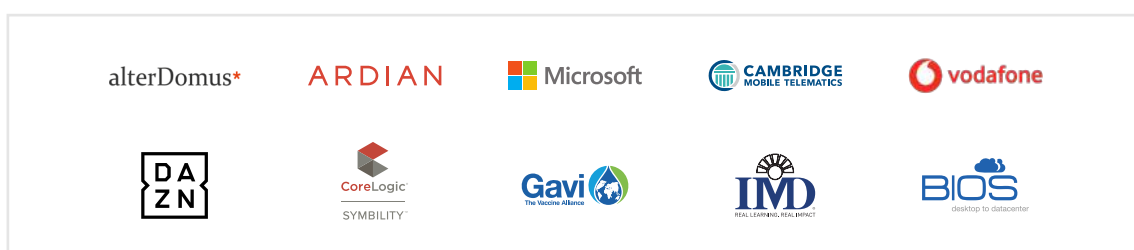

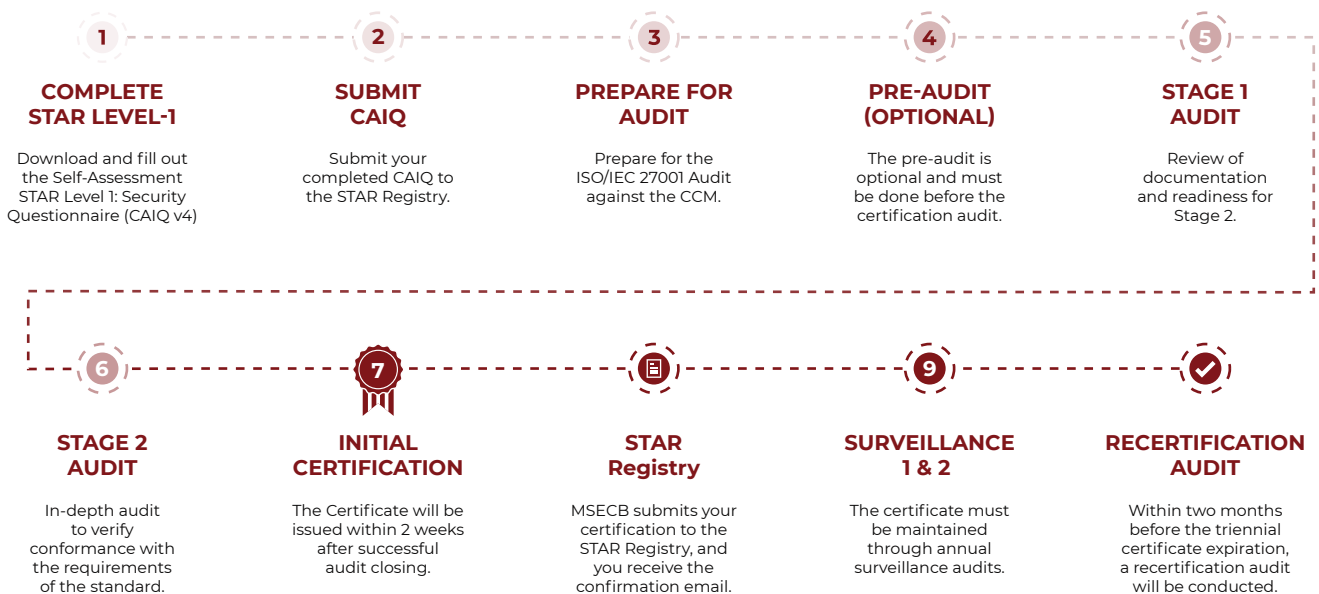

MSECB Certification Process

As a trusted certification body, we can help your organization obtain CSA STAR certification!

For the CSA STAR Level 2 certification, you must be ISO/IEC 27001 certified, or you can get both the ISO/IEC 27001 certification and the CSA STAR certification simultaneously. The CSA STAR certificate will have the same expiration date as your ISO/IEC 27001 certificate.

In addition, your organization must complete the **CAIQv4 and CCM** documents - the required Consensus Assessment Initiative Questionnaire (CAIQ) and the Cloud Controls Matrix (CCM) that will be used to confirm your compliance during a third-party audit. MSECB will take care of everything else.

Upon verification that your organization conforms with the requirements of the CSA STAR, we will issue a certificate. This certification is then maintained through regularly scheduled annual surveillance audits, with the recertification audit being conducted on a triennial basis.

1	**2**	**3**	**4**	**5**
COMPLETE STAR LEVEL-1	**SUBMIT CAIQ**	**PREPARE FOR AUDIT**	**PRE-AUDIT (OPTIONAL)**	**STAGE 1 AUDIT**
Download and fill out the Self-Assessment STAR Level 1: Security Questionnaire (CAIQ v4)	Submit your completed CAIQ to the STAR Registry.	Prepare for the ISO/IEC 27001 Audit against the CCM.	The pre-audit is optional and must be done before the certification audit.	Review of documentation and readiness for Stage 2.

6	**7**	**8**	**9**	**10**
STAGE 2 AUDIT	**INITIAL CERTIFICATION**	**STAR Registry**	**SURVEILLANCE 1 & 2**	**RECERTIFICATION AUDIT**
In-depth audit to verify conformance with the requirements of the standard.	The Certificate will be issued within 2 weeks after successful audit closing.	MSECB submits your certification to the STAR Registry, and you receive the confirmation email.	The certificate must be maintained through annual surveillance audits.	Within two months before the triennial certificate expiration, a recertification audit will be conducted.

Choose MSECB as your trusted certification body for your CSA STAR certification and elevate your cloud security. We are committed to reinforcing your cloud operations, inspiring trust, and gaining a competitive edge in the dynamic realm of cloud computing.
