# **Bamboo Group Journey Toward ISO/IEC 27001 Certification**

[www.msecb.com](http://www.msecb.com)

**ISO/IEC 27001 is the crucial information security certification that has enabled us to improve processes within the company to become even better and more secure for our current and future clients.**

– **Alex Antonuk** (Head of Strategic Delivery & Operations at Bamboo Group)

## ► **About Bamboo Group**

Bamboo Group is a privately owned group of technology companies with a focus on digital products and services.

Within its venture capital activity, the company invests in projects that have long-term potential and provides them with strong support for growth. Beyond the financial commitment, Bamboo Group portfolio companies receive access to the Group's vast network, technological expertise across key verticals, support in marketing and commercial collaborations, and coworking spaces.

The company is headquartered in Tallinn, Estonia and has representative offices in Eastern Europe, Africa, and Asia. Bamboo Group cooperates with clients from more than 22 countries being a trusted partner to leading brands, including Jaguar Land Rover, Coca-Cola, Unilever, Škoda, Al Telekom Austria Group, Mobile Telesystems, Orange, Axiata, Telia Sonera, Airtel, Viber and many others.

## ► **Why did you choose to get certified against ISO/IEC 27001?**

ISO/IEC 27001 is one of the most common certifications in the IT industry that our clients are most often interested in. In addition, most of the policies in this standard are practical in real life and significantly increase the information security level.

## ▶ **Benefits of obtaining certification against ISO/IEC 27001**

ISO/IEC 27001 certification prompted us to conduct a thorough review of our current information security standards and policies. Some of them we have improved and plan to improve in the future. ISO/IEC 27001 encourages the company to review various processes periodically and continuously within the company, which has positively impacted our business.

## ▶ **Experience with MSCEB**

We enjoyed the experience of interacting with MSCEB. All agreed deadlines were met. During the audit, the auditor thoroughly familiarized himself with the prepared documents, asked relevant questions, and provided valuable insights. As a result, we know which processes we are doing right, and which ones need improvement.

## About MSEC B

MSEC B is accredited by IAS to offer audit and certification services for a wide range of ISO Standards. If you are interested to certify your management systems start by getting a **Free Quote**.
