# Lily Hospitals Journey Toward **ISO/IEC 27001** Certification

[www.msecb.com](http://www.msecb.com)

**ISO/IEC 27001 certification signifies our steadfast commitment to information security, demonstrating our proactive dedication to safeguarding our patient and business data, fostering trust, and embracing a culture of continual improvement in the ever-evolving digital security landscape.**

**– Joel Orji** (Global Lead, Operations at Lily Hospitals)

## ▶ **About Lily Hospitals**

Lily Hospitals is one of Nigeria's growing networks of private healthcare institutions with an outstanding reputation for delivering excellent clinical services. We remain committed to providing and delivering quality patient-centered and technology-driven care across all our locations in Nigeria. Our integrated health services are wide-ranging, inclusive of clinical and diagnostic services covering primary, secondary, and tertiary care. Our team of highly qualified medical professionals is equipped to provide a comprehensive range of treatments, including minimal access procedures, neonatology, ICU care, fertility, ophthalmology, and surgical services.

We are proud to be an accredited center for residency training in Radiology, Obstetrics & Gynaecology, and Family Medicine, and also accredited for internship training for medical, Radiography Optometry, Pharmacy, Nursing, and Laboratory Medicine graduates.

At Lily Hospitals, we provide patients with the highest quality healthcare services, combining advanced medical technology with a compassionate and personalized approach to patient care.

## ▶ **Why did you choose to get certified against ISO/IEC 27001?**

Lily Hospitals is committed to prioritizing the security and confidentiality of patients and business information. By obtaining ISO/IEC 27001 certification, our organization demonstrates an unwavering commitment to implementing robust information security best practices and managing related risks effectively.

## ▶ **Benefits of obtaining ISO/IEC 27001 certification**

ISO/IEC 27001 certification provided us with enhanced information management security standards aligned with global best practices to foster customer trust reduce related risk, and promote cost savings through efficient processes.

## ▶ **Experience with MSECBS**

We had a positive experience with MSECBS. Our concerns were addressed in a friendly and timely manner, showcasing MSECBS's commitment to assisting organizations in achieving robust information security management systems.
