

The image shows a bright, modern office environment. In the foreground, there is a glass-walled conference room with a long white table and several grey office chairs. A small potted plant sits on the table. In the background, there is a desk area with a computer monitor, a chair, and another potted plant. The room has large windows with light-colored curtains, and the overall atmosphere is clean and professional.

Corporate Governance and Resilience Management Systems Certification

Mini-Catalogue

Corporate Governance and Resilience Management

In the contemporary business landscape, ensuring Corporate Governance and Resilience is not just an option but a strategic imperative for organizations of all sizes. Navigating a complex landscape of regulations, risks, and disruptions demands an unwavering commitment to these principles.

Ensuring your business remains resilient, adaptable, and prepared for the challenges of tomorrow is a strategic commitment that signifies adherence to international best practices, fostering trust among stakeholders.

Our certification services are tailored to meet these contemporary demands. At MSEC, we specialize in Corporate Governance and Resilience Management, offering comprehensive solutions that fortify your organization's governance framework and enhance its resilience in the face of diverse challenges. These certifications include:

- **ISO 22301 – Business Continuity Management Systems**
- **ISO 37001 – Anti-Bribery Management Systems**
- **ISO 37301 – Compliance Management Systems**
- **ISO 28000 – Supply Chain Security Management Systems**
- **ISO 55001 – Asset Management Systems**

Our global network of expert auditors ensures your certification journey is smooth, thorough, and aligned with international standards.

By partnering with us, you showcase your dedication as a responsible, reliable, and resilient player in the global marketplace, ensuring sustained success.

ISO 22301 Business Continuity Management Systems Certification

ISO 22301 is an internationally recognized standard designed to help organizations establish, implement, and maintain an effective Business Continuity Management System (BCMS).

By obtaining ISO 22301 certification, your organization establishes resilience that meets the needs of customers, stakeholders, and regulatory requirements, even during challenging times.

Our ISO 22301 certification demonstrates your organization's commitment to validating your preparedness to respond to emergencies, recover swiftly from disruptions, ensure uninterrupted operations, and safeguard your business against potential threats.

“Depending on the size of the organization, the hourly rate of downtime is anywhere from \$10,000 to over \$5 million.” – Source: Datto

Advantages of ISO 22301 Certification

- ✓ Strengths the organization's resilience and ability to respond effectively to disruptions, ensuring the continuity of operations and minimizing downtime and financial losses.
- ✓ Enables identification of potential development of contingency plans and ensures a timely recovery from unexpected incidents.
- ✓ Enhances credibility among clients, stakeholders, and partners while maintaining uninterrupted services.
- ✓ Facilitates better understanding of organizational strengths and weaknesses, allowing organizations to address vulnerabilities and improve efficiency.
- ✓ Ensures a seamless and secure business environment, fostering trust and long-term relationships with stakeholders.

ISO 37001 Anti-Bribery Management Systems Certification

ISO 37001 is a recognized international standard for anti-bribery that sets out the requirements for establishing, implementing, maintaining, and continually improving an Anti-Bribery Management System.

By obtaining ISO 37001 certification, your organization promotes a culture of ethics, transparency, and integrity throughout operations.

Our ISO 37001 certification signifies your adherence to best practices, enhances your reputation, and builds trust among stakeholders by adding a layer of credibility and assurance to your anti-bribery efforts.

“The loss and damage that bribery causes to organizations is more costly than the implementation and certification of the Anti-Bribery Management System.” – Source: Transparency

Advantages of ISO 37001 Certification

- ✓ Enhances reputation through integrity and ethical conduct, resulting in better relationships and more business opportunities.
- ✓ Ensures well-documented and defined policies, procedures, and controls to prevent, detect, and address bribery risks.
- ✓ Grants the organization a distinct advantage in winning contracts and exploring business possibilities as clients seek trustworthy organizations.
- ✓ Creates awareness within an organization's employees, which makes them committed to upholding anti-bribery policies and principles.
- ✓ Helps to identify areas for enhancement and strengthen anti-bribery measures through regular audits and reviews.

ISO 37301 Compliance Management Systems Certification

ISO 37301 is an internationally recognized standard focused on Compliance Management System (CMS). This standard provides a systematic framework for organizations to manage compliance risks and ensure ethical conduct.

By obtaining ISO 37301 certification, your organization emphasizes a systematic approach, reflecting its commitment to proactive compliance management, ethical conduct, and responsible business practices.

Our ISO 37301 certification helps your organization cultivate a morality, openness, and accountability culture at all levels by identifying and addressing compliance risks.

“Organizations want to work and collaborate with companies they can trust, and trust is built on a company culture of doing the right thing, where every employee contributes because they understand and believe in the importance of it. Central to this is good leadership and clear values, which have to come from the top.” – Source: Howard Shaw, Chair of the ISO Technical Committee on Governance (ISO TC 309)

Advantages of ISO 37301 Certification

- ✓ Ensures all compliance-related processes and activities are streamlined, managed effectively, and aligned with international best practices.
- ✓ Identifies and assesses compliance risks, allowing organizations to implement preventive measures to avoid non-compliance issues.
- ✓ Instills confidence in the organization among stakeholders as they recognize its commitment to ethical conduct and responsible business practices.
- ✓ Reduces the likelihood of compliance violations as employees become more aware of compliance requirements.
- ✓ Improves internal communication and enhances coordination and cooperation, fostering collaboration within the organization.

ISO 28000 Supply Chain Security Management Systems Certification

ISO 28000 is an internationally recognized standard focused on Supply Chain Security Management Systems (SCSMS), helping organizations to establish, implement, maintain, and continually improve security practices within their supply chain.

By obtaining ISO 28000 certification, your organization demonstrates its commitment to safeguarding the supply chain and ensuring the smooth flow of goods and services.

Our ISO 28000 certification helps your organization enhance security practices, maintaining the integrity and resilience of the supply chain.

“57% of companies believe that supply chain management gives them a competitive edge, and 70% believe that supply chains are a key driver for quality customer service.” – Source: Zippia

Advantages of ISO 28000 Certification

- ✓ Identifies and mitigates security risks, ensuring that goods and services are transported safely and securely.
- ✓ Enhances supply chain resilience and responsiveness to security threats, protecting organization assets, reputation, and customer trust.
- ✓ Positions organizations as trusted and secure supply chain partners, driving customer confidence and loyalty.
- ✓ Gives organizations a competitive edge in the market since many clients and partners prefer to work with organizations prioritizing supply chain security.
- ✓ Leads to cost savings, improved operational efficiency, and enhanced supply chain performance.

ISO 55001 Asset Management Systems Certification

ISO 55001 is an internationally recognized standard for establishing, implementing, maintaining, and continually improving a robust Asset Management System (AMS). It focuses on helping organizations optimize the performance and value of their assets.

By obtaining ISO 55001 certification, your organization can demonstrate commitment to optimizing asset performance, enhancing resource utilization, and driving sustainable success in asset-intensive industries.

Our ISO 55001 certification demonstrates your organization's commitment to best practices in asset management and dedication to achieving value from its assets.

“Asset management can be the single most powerful weapon in a company's arsenal for saving time, money, and lots of executive headaches.” – Source: ISO

Advantages of ISO 55001 Certification

- ✓ Ensures assets are reliable and efficient and contribute to achieving business objectives.
- ✓ Helps organizations make informed decisions about maintenance, investments, and asset lifecycles with a systematic approach and reliable asset data.
- ✓ Assures that assets remain operational for extended periods, reducing the need for premature replacements.
- ✓ Minimizes legal risks and potential penalties by ensuring adherence to asset management regulations and compliance requirements.
- ✓ Fosters a culture of continuous improvement and ensures organizations remain adaptive and responsive to changing asset management needs.

About MSECB

MSECB is qualified to certify organizations to a wide range of standards pertinent to various industries. We can conduct management system audits for businesses seeking certification(s) that are related to the following fields:

Information Security and Privacy

Quality, HSE, and Sustainability

Corporate Governance and Resilience

We have more than 600 management system auditors, including auditors engaged in developing ISO standards and ISO technical committees.

In addition to the qualified and experienced auditors, MSECB ensures that all other team members are competent to perform pertinent tasks within the parameters of our accreditation.

We certified organizations globally, in over 70 countries, ranging from small businesses to large multinational organizations.

Under normal circumstances, we aim to issue the certificate within weeks after the audit, providing a premium customer experience.

700+
MS Auditors

7k+
Audits
Conducted

70+
Countries of
operations

Why should you consider MSECB as your certification body?

Selecting the right certification body to perform the third-party audit is vital for your organization's success. Here is why MSECB stands out as your ideal partner:

Dedication to Continuous Excellence

We place an unwavering emphasis on quality and continuous improvement. Our commitment to maintaining the highest standards and enhancing our services to remain at the forefront of the industry ensures that our clients receive top-notch audit and certification services.

Prompt and Reliable Services

We understand the importance of a timely certification, and with our efficient and streamlined certification services, we minimize the certification turnaround time without compromising quality.

Outstanding Customer Support

We take a customer-centric approach and are committed to our customer's success and satisfaction. We deliver first-rate certification services with accountability, reliability, and exceptional support, guiding you throughout the process from start to finish and promptly addressing any queries or concerns.

High Expertise with Competitive Pricing

We deliver services with competent, knowledgeable, and experienced auditors while offering competitive pricing and ensuring value for your investment in your certification.

MSECB Accreditation

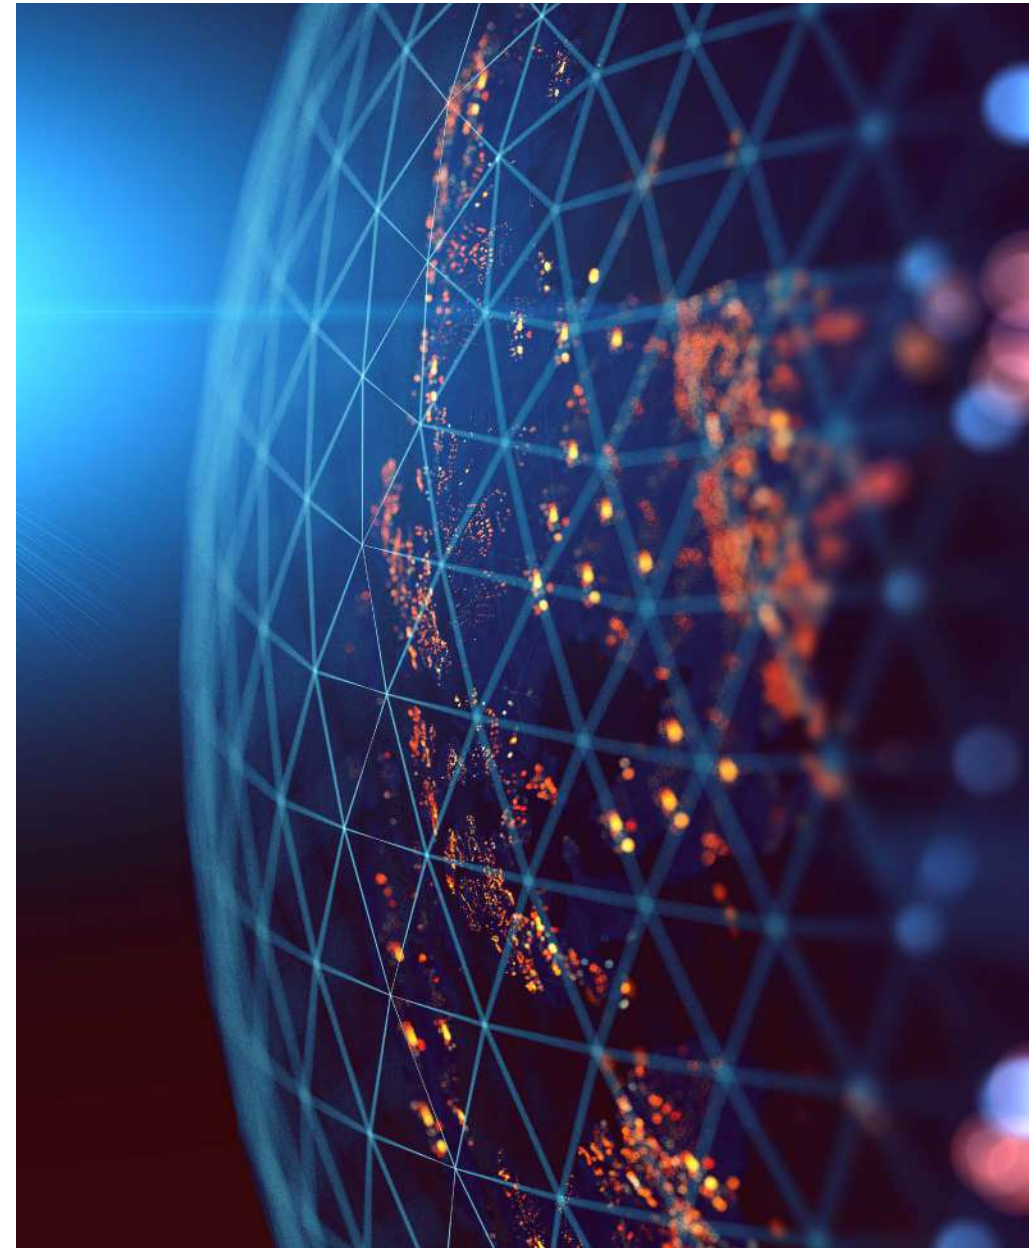

Accreditation is crucial for building trust and reliability, ensuring competence and consistency, and compliance with regulatory and industry standards.

MSECB is an IAS-accredited certification body for management systems on various international standards.

Our prestigious IAS (International Accreditation Service) accreditation, under the ISO/IEC 17021 Requirements for bodies providing audit and certification of management systems, reflects our unwavering dedication to conducting audits and issuing ISO certifications with excellence and trustworthiness. This accreditation enables us to benefit from IAS's recognition as a Multilateral Recognition Arrangement (MLA) signatory with the International Accreditation Forum (IAF).

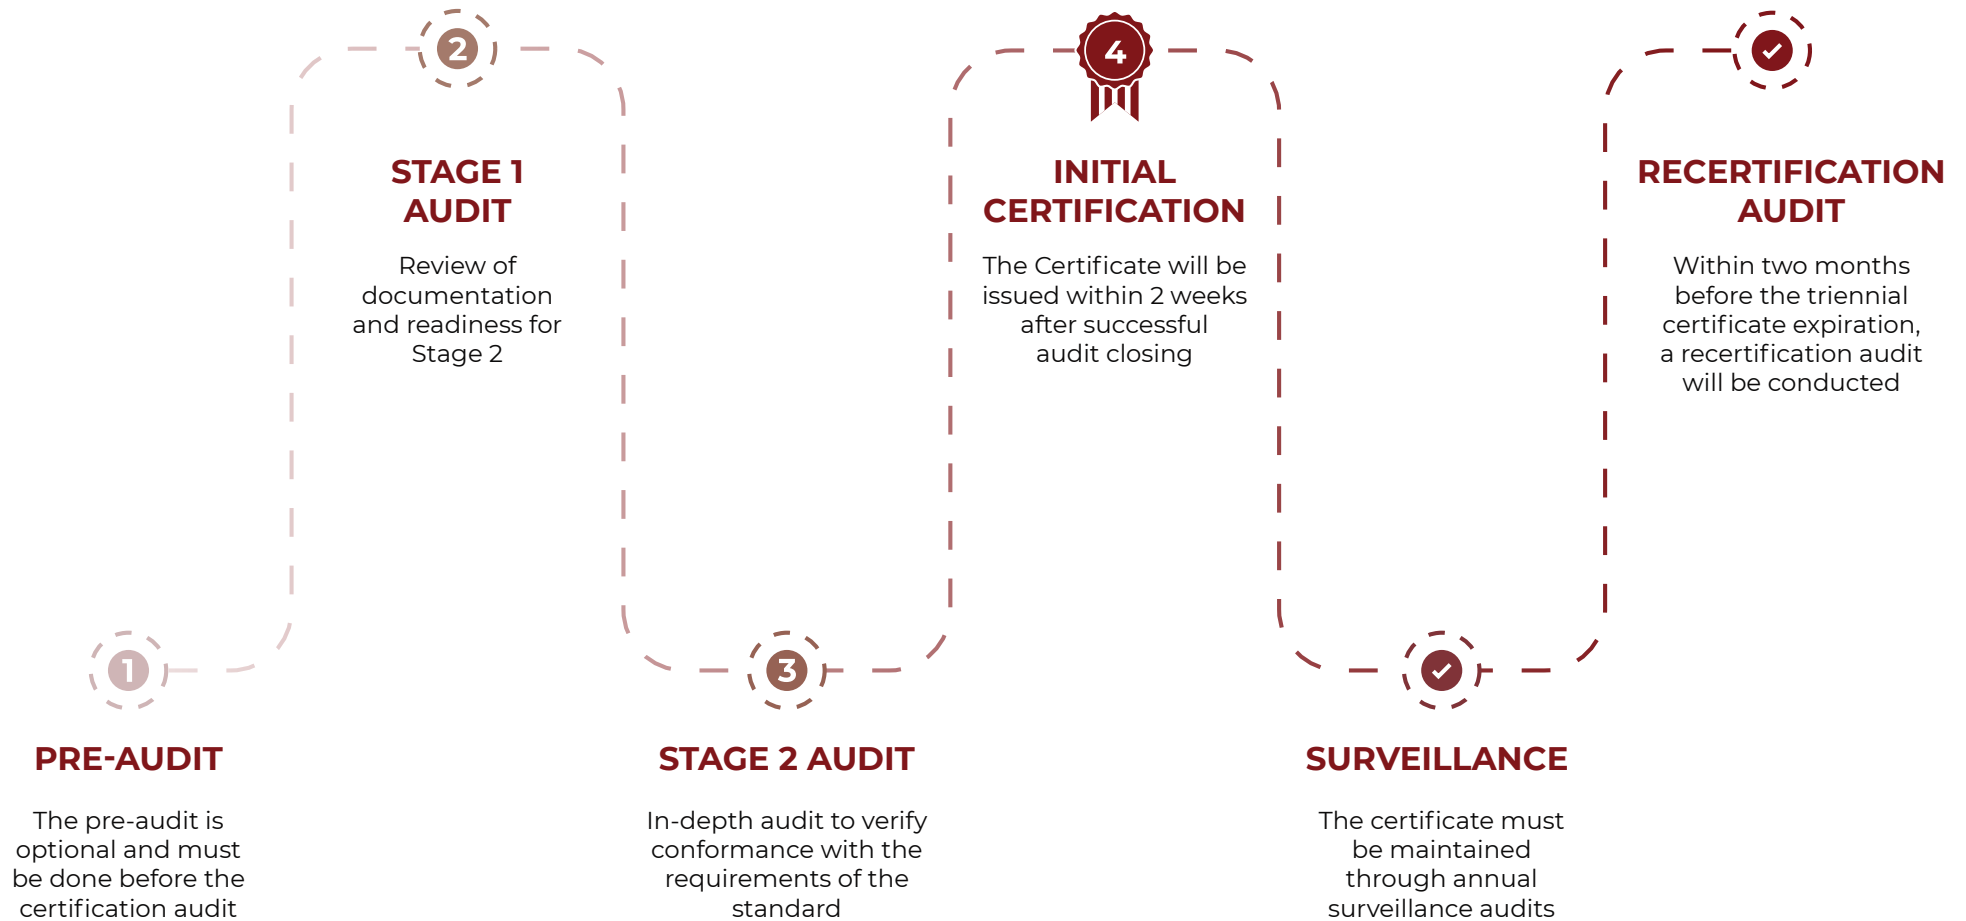

MSECB acts as a third party, conducting assessments impartially without conflicts of interest and objectively evaluating an organization's systems, processes, and products to verify conformity with specific standards.

Furthermore, MSECB, as a Corporate Member of the Cloud Security Alliance (CSA), offers Level 2 STAR Certification in conjunction with ISO/IEC 27001. We are also proud members of the Independent Association of Accredited Registrars (IAAR), a member-driven organization promoting accredited management system certification.

MSECB Audit and Certification Process

Upon verifying that your organization conforms with the requirements of the relevant standard by an audit, a Management System Certification is granted by MSECB. This certification is then maintained through scheduled annual surveillance audits conducted by MSECB, with the recertification audit performed on a triennial basis.

What Clients Say About Us

MSECB immediately responded to any request and was instantly available to offer their help and support. They have a good understanding of customers' needs and excellent client orientation. The whole MSECB team maintains a high level of professionalism.

– Gavi, the Vaccine Alliance

“DAZN had an excellent experience with MSECB. The auditors were well prepared, with a high degree of knowledge of the ISO/IEC 27001 standard. The auditing process was delivered courteously and professionally. The results were well-written and easy to follow, and customer service was very responsive.”

– DAZN

“The experience with MSECB has been extremely positive. The reports of the various certifications were validated before the final delivery of the documents, and the final versions were filed without delay. MSECB acted in this context like a business partner.”

– CoreLogic | Symbility

Transfer Your Certification to MSEC B

MSEC B ensures a smooth and hassle-free transition process. Our experts will guide you through every step, ensuring minimal disruption to your operations.

You can smoothly transfer your certification by following these simple steps:

Step 1 Request to transfer your certification to MSEC B. Initiate contact at info@msecb.com.

Step 2 Fill out the application form and submit the necessary documentation and information, which includes:

- The last audit report(s).
- The status of any outstanding non-conformities.
- The valid certificate(s) issued by an accredited certification body.
- The stage of the current certification cycle.
- The reasons for seeking transfer of certification(s).

Step 3 MSEC B will inform your organization about the next steps based on the successful evaluation of your documentation and your current certification cycle.

Step 4 An MSEC B certificate will be issued respecting the dates of the previous certification cycle after the audit has been completed successfully.

Your organization will benefit from transferring to MSEC B as it will build a foundation of trust and drive toward continued success.
